Introduction

Calendar integration with the IM and Presence Service allows users to incorporate their calendar and meeting status from Microsoft Outlook into their availability status on IM and Presence Service.

New and Changed Information

The following table provides an overview of the significant changes to the features in this guide up to this current release. The table does not provide an exhaustive list of all changes made to the guide or of the new features up to this release.

Table 1: New Features and Changed Behavior in Unified Communications Manager and IM and Presence Service

Feature or Change	Description	See	Date
Initial Release of Document for Release 14	—	—	March 31, 2021
Initial Release of Document for Release 14SU1	—	—	October 27, 2021
Initial Release of Document for Release 14SU2	—	—	June 16, 2022

Audience

This publication is for experienced users who configure and maintain Microsoft Exchange integration with the IM and Presence Service.

Book Structure

This guide contains the following chapters:

Chapter	Title	Description
1	Preface, on page 1	This chapter contains information on the book structure, audience, and purpose of this guide.
2	Introduction	This chapter introduces the Microsoft Outlook calendar integration feature for the IM and Presence Service.
3	New and Changed Information, on page 1	This chapter is about new and changed information.
4	Planning for Calendar Integration	This chapter contains information on the prerequisites so that you can plan your calendar integration.
5	Configure Microsoft Exchange	Refer to this chapter only if you are connecting to an on-premise Microsoft Exchange server for Outlook calendar integration. This chapter describes how to configure your Exchange server for the integration.
6	Configure Microsoft Office 365	Refer to this chapter only if you are connecting to a cloud-hosted Office 365 server for Outlook calendar integration. This chapter describes how to configure your Office 365 server for the integration.
7	Configure the IM and Presence Service	Refer to this chapter to configure the IM and Presence Service for Outlook calendar integration. Use this chapter regardless of whether you are connecting to an on-premise Exchange server or a cloud-hosted Office 365 server.
8	Troubleshooting Exchange Calendaring Integrations	This chapter describes troubleshooting tasks and fixes for common problems.

Conventions

This document uses the following conventions:

Convention	Indication
bold font	Commands and keywords and user-entered text appear in bold font.

Convention	Indication
<i>italic font</i>	Document titles, new or emphasized terms, and arguments for which you supply values are in <i>italic font</i> .
<code>courier font</code>	Terminal sessions and information the system displays appear in <code>courier font</code> .

Note Means reader take note. Notes contain helpful suggestions or references to material not covered in the manual.

Tip Means *the following information helps you solve a problem*. The tips information might not be troubleshooting or even an action, but could be useful information, similar to a Timesaver.

Caution Means reader be careful. In this situation, you might perform an action that could result in equipment damage or loss of data.

Obtaining Documentation and Submitting a Service Request

For information on obtaining documentation, submitting a service request, and gathering additional information, see the monthly *What's New in Cisco Product Documentation*, which also lists all new and revised Cisco technical documentation, at:

<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>

Subscribe to the *What's New in Cisco Product Documentation* as a Really Simple Syndication (RSS) feed and set content to be delivered directly to your desktop using a reader application. The RSS feeds are a free service and Cisco currently supports RSS version 2.0.
