Ensure Smart Account Can Use License Reservation

Use of the License Reservation requires specific permission from Cisco. If you do not see a "Reserve Licenses..." button in Inventory > Licenses in [Smart Software Manager](#), your account does not have the ability to use this feature.

Please be aware that License Reservation reduces or nullifies many of the benefits of Smart Licensing including:

- Dynamic movement of license consumption between products, failed or otherwise
- License usage visibility and asset management
- Simplified product registration
