

Find and Hire Top Talent

Introducing the Talent Bridge Matching Engine—Cisco Networking Academy’s free resource for world-class, entry-level talent

Now, you can easily search for qualified Networking Academy candidates for your company’s open entry-level jobs or internships. The Networking Academy Talent Bridge Matching Engine connects Cisco partners like you to passionate, tech-savvy workers in 180 countries—at no cost.

Stay in control

With the Matching Engine you can quickly search online for NetAcad candidates and veterans skilled in CCNA, CCNP, cybersecurity and more. Filter your search based on levels of achievement, geographic location, and job roles as you post and track your open jobs. Then instantly find and contact qualified graduates with the skills you need most—in real time. You control the matching criteria and the candidates you reach out to.

Join Cisco partners globally

Cisco and a network of Cisco partner organizations leverage Talent Bridge to build their workforces using Networking Academy talent. Our graduates are trained problem solvers, with critical skills for the digital economy.

Get the best out of the Matching Engine

This new resource launches in November 2017, so check back frequently to post jobs and find candidates. The number of participants will grow over time. Also, let us know if you hire a candidate, so that we know you were successful and can track metrics.

Registering is easy:

1. Create a Cisco Connection Online (CCO) account or log into [CCO](#)
2. Associate your Cisco ID with your parent company
3. Register and post your jobs (using the recruitment tab) to find candidates, or simply [click here](#)

Sign up today to:

- Find the perfect match: Use Matching Engine to post jobs and candidate requirements, then connect with qualified matches based on your criteria—including location, education, certifications, and more
- Save time: Our graduates are trained in Cisco and other technologies, so you don’t waste time sorting through less-qualified candidates
- Build a pipeline: Over a million students study in Networking Academies globally, giving you a valuable, sustainable talent resource for entry level positions
- Sponsor a team of IT students: We can connect you to a Dream Team for help with a special event
