Release Notes for Cisco Business Dashboard Lite Version 2.8.0

First Published: 2024-06-25

Introduction

These release notes describe the recommended practices that apply to Cisco Business Dashboard Lite.

System Requirements

For information on updates to the system requirements for the Cisco Business Dashboard Lite refer to:

- Cisco Business Dashboard Lite Installation Guide for Microsoft Windows.

Cisco Supported Devices

Cisco Business Dashboard Lite supports Cisco Business and Cisco Small Business 100 to 500 series as well as the Catalyst 1200 and 1300 series switches. For a detailed list of devices and features supported, please refer to the CBD-Lite-Device-Support-List

Limitations and Requirements

The Cisco Business Dashboard Lite limitations and restrictions are described in the following:

General Limitations

- Up to 25 network devices can be managed by a single Cisco Business Dashboard Lite instance.

- Depending on the size of the network, it may take the Cisco Business Dashboard Lite several minutes to discover all devices and calculate the network topology.
