

# Every gamemaster needs a network master

## Task force support

**2,160,000**

Minutes of gameplay  
powered by Cisco UCS

## Rally the troops

**35,000**

BlizzCon fans on 1800+ PCs connected  
by Cisco routers, switches, and servers

## Infiltrate

**180**

Countries connecting and participating online

## Celebrate in epic proportions

**1**

Single largest gaming event put on by one company

We were honored to partner with Blizzard to deliver the network—all the compute power, none of the latency—for BlizzCon. And now, we're ready for your challenge.
