## Overview

Partner Experience (PX) Cloud is a portal for Cisco Partners to connect with Cisco and their Customers that includes unified dashboards, Partner Offers, learnings, and more. PX Cloud allows Partners to identify opportunities to extend their service offerings by accessing a customer's CX Cloud information. PX Cloud also provide a comprehensive set of APIs that allows partners to integrate our insights into their Customer Success practice tools.

After onboarding, navigate to [PX Cloud](#) and log in using CCO (Cisco ID) credentials.

## What's New

There are no new PX Cloud features available as part of the August 2023 release.

## Defects

### Resolved Defects

This section outlines the resolved defects for this release.

Identifier	Headline
<a href="#">CSCwf84131</a>	Previously in PX Cloud, an error displayed if the <b>Cisco may contact me about this feedback</b> check box was selected in the feedback form. This issue has been resolved and the error no longer displays.
<a href="#">CSCwf88937</a>	Previously in PX Cloud, an error displayed when users with read-only access attempted to open an unpublished <b>Ask-the-Expert</b> or <b>Accelerator</b> offer. This issue has been resolved and the error no longer displays.
<a href="#">CSCwf90362</a>	Previously in PX Cloud, when navigating to <b>Admin Settings</b> , the breadcrumb intermittently displayed <b>Back to Portal</b> instead of the tile name from which the navigation occurred. This issue has been resolved such that the breadcrumb displays the appropriate tile name as expected.

## **Known Defects**

There are no known defects for this release.
