

Language Select on RV320 and RV325 VPN Router Series

Objective

RV32x VPN Router Series gives you the opportunity to select a language according to your need. You can choose from five different languages: English, Deutsch, Español, Français, and Italiano.

This article explains how to select a language on the RV32x VPN Router Series.

Applicable Devices

- RV320 Dual WAN VPN Router
- RV325 Gigabit Dual WAN VPN Router

Software Version

- v1.1.0.09

Language Select

Step 1. Log in to the web configuration utility and choose **System Management > Language Select**. The *Language Select* page opens:

The screenshot shows a web configuration page titled "Language Selection". It features a "Select Language" label followed by a drop-down menu currently set to "English". Below the menu are two buttons: "Save" and "Cancel".

Step 2. Choose the appropriate language from Select Language drop-down list.

Step 3. Click **Save** to save the changes.
