

What's New in Cisco Product Documentation

February 2018

RSS

What's New in Cisco Product Documentation lists new and revised Cisco documentation since the last release of this monthly publication. To subscribe to the *What's New in Cisco Product Documentation* RSS feed, paste this URL into your RSS reader:

https://www.cisco.com/cdc_content_elements/rss/whats_new/whatsnew_rss_feed.xml

Previous releases of the *What's New in Cisco Product Documentation* are available at the following URL:

<https://www.cisco.com/c/en/us/td/docs/general/whatsnew/archive/archive.html>

Cisco Product Documentation Resources

Cisco Bug Search Tool

Bug Search Tool (BST), the online successor to Bug Toolkit, is designed to improve our customers' effectiveness in network risk management and device troubleshooting.

BST allows partners and customers to search for software bugs based on product, release, and keyword, and it aggregates key data such as bug details, product, and version.

Visit [Bug Search Tools & Resources](#) on Cisco.com. For details on the tool overview and functionalities, visit the help page at <https://www.cisco.com/web/applicat/cbsshelp/help.html>

Cisco Icon Library

Cisco icons are globally recognized and generally accepted as standard for network icon topologies. Cisco icons are available for download:

<https://www.cisco.com/c/en/us/about/brand-center/network-topology-icons.html>

Cisco International Websites

To find international Cisco websites, go to <https://www.cisco.com> and click **Worldwide** at the top of the page.

Technical Documentation Ideas Forum

This forum allows you to communicate with other customers and Cisco technical writers. You can share your ideas about Cisco documentation on the Technical Documentation Ideas forum:

<https://www.cisco.com/go/techdocideas>

Cloud and Systems Management

- [Cisco Prime Collaboration Assurance—Advanced and Analytics Guide, 12.x](#)

Assurance—Advanced: Provides information on assurance tasks, such as setting up the server, managing devices in Cisco Prime Collaboration, monitoring the network, performing diagnostics and server maintenance.

Analytics: Provides information on identifying the traffic trend, technology adoption trend, over-and-under-utilized resources, device resource usages in your network, tracking recurring network issues and addressing service quality issues.

- [Cisco Prime Collaboration Assurance and Analytics 12.1 Open Source Document](#)

Provides a list of licenses and notices for open source software used in Cisco Prime Collaboration Assurance 12.1.

- [Cisco Prime Collaboration Assurance and Analytics 12.1 Release Notes](#)

Provides information about new features and enhancements, any Important Notes and Open Caveats found during system validation testing by the Cisco Prime Collaboration Testing team, Alpha, and EFT customers.

- [Cisco Prime Collaboration Assurance and Analytics Install and Upgrade Guide—12.x](#)

Describes the procedure for new installation using the latest open source platform such as CentOS 7.3 and Open JDK-7. Migration to the latest open source platform such as CentOS 7.3 using Data Migration Assistant Tool and OVF Tool.

- [Cisco Prime Collaboration Assurance Documentation Overview, 12.1](#)

Provides a list of all the Cisco Prime Collaboration 12.1 user documents.

- [Cisco Prime Collaboration Assurance Serviceability, 12.1](#)

Provides information, such as Start/stop the process, view the process status, perform software update like installing a patch or upgrade to the next version, restore backed up data, enable root access, check system information, view system history log if Data Migration Assistant fails to execute during installation. Serviceability also helps execute Data Migration Assistant (DMA) again, change system parameters like IP address, DNS, Reset globaladmin password, and Reboot.

- [Cisco Prime Collaboration Assurance UCOD, 12.1](#)

Provides information about UCOD tasks, such as collect all the unified cluster information from more than one PCA node.

Collaboration Endpoints

- [Cisco Spark Room 70 CAD Drawings](#)

Contains the CAD drawings of Cisco Spark Room 70 Single and Cisco Spark Room 70 Dual, for all mounting options, in PDF format.

- [Cisco Spark Room 70 CAD Drawings in DXF—download and unzip](#)

Contains the CAD drawings of Cisco Spark Room 70 Single and Cisco Spark Room 70 Dual, for all mounting options, in DXF format.

- [Cisco TelePresence CE Software Release Notes \(CE9\)](#)

Describes the features and capabilities included in the Cisco TelePresence DX, MX, Room, and SX series software version CE9.

- [Cisco TelePresence IL Software Release Notes \(IL1\)](#)
Describes the features and capabilities included in the Cisco TelePresence ISDN Link software IL 1.
- [Cisco TMS Provisioning Configuration Template in XML for DX, MX, SX, and Room Series \(CE9.2.1\)—download and unzip](#)
Contains the Cisco TMS Provisioning Configuration Template in XML format for Cisco TelePresence DX Series (DX70, DX80), MX Series (MX200 G2, MX300 G2, MX800D), SX Series (SX80, SX20, SX10), and Room Series (Room Kit, Codec Plus, Room 55, Room 70) for the software release CE9.2.1.

Conferencing

- [Cisco TelePresence Management Suite Administrator Guide \(15.6.1\)](#)
Describes the configuration, maintenance, and troubleshooting of Cisco TMS 15.6.1.
- [Cisco TelePresence Management Suite Installation and Upgrade Guide \(15.2.1\)](#)
Describes the requirements for installation and the installation and upgrade procedures for Cisco TelePresence Management Suite 15.2.1 Includes instructions and guidance for redundant deployments.
- [Cisco TelePresence Management Suite Installation and Upgrade Guide \(15.3\)](#)
Describes the requirements for installation and the installation and upgrade procedures for Cisco TelePresence Management Suite 15.3 Includes instructions and guidance for redundant deployments.
- [Cisco TelePresence Management Suite Installation and Upgrade Guide \(15.4\)](#)
Describes the requirements for installation and the installation and upgrade procedures for Cisco TelePresence Management Suite 15.4 Includes instructions and guidance for redundant deployments.
- [Cisco TelePresence Management Suite Installation and Upgrade Guide \(15.5\)](#)
Describes the requirements for installation and the installation and upgrade procedures for Cisco TelePresence Management Suite 15.5 Includes instructions and guidance for redundant deployments.
- [Cisco TelePresence Management Suite Installation and Upgrade Guide \(15.6.1\)](#)
Describes the requirements for installation and the installation and upgrade procedures for Cisco TelePresence Management Suite 15.6.1 Includes instructions and guidance for redundant deployments.
- [Cisco TelePresence Management Suite Installation and Upgrade Guide \(15.6\)](#)
Describes the requirements for installation and the installation and upgrade procedures for Cisco TelePresence Management Suite 15.6 Includes instructions and guidance for redundant deployments.
- [Cisco TelePresence Management Suite Provisioning Extension Open Source Documentation \(1.12\)](#)
Details the Open Source software used in Cisco TMSPE 1.12.
- [Cisco TelePresence Management Suite Provisioning Extension Release Notes \(1.12\)](#)
Details changes in Cisco TMSPE 1.12.
- [Cisco TelePresence Management Suite Provisioning Extension with Cisco Unified CM Deployment Guide \(1.12\)](#)
Describes the installation, upgrade, and initial configuration procedures for Cisco TMSPE 1.12 with Cisco Unified CM.
- [Cisco TelePresence Management Suite Provisioning Extension with Cisco VCS Deployment Guide \(1.12\)](#)
Describes the installation, upgrade, and initial configuration procedure for Cisco TMSPE 1.12 with Cisco VCS.

- [Cisco TelePresence Management Suite Software Release Notes \(15.6.1\)](#)

Details new features, resolved issues, open issues, and limitations in Cisco TMS 15.6.1.

Unified Communications

- [Cisco Expressway Cluster Creation and Maintenance Deployment Guide \(X8.10\)](#)
Provides step-by-step instructions for deploying a cluster of Cisco Expressway systems.
- [Cisco Expressway Release Note \(X8.10.4\)](#)
Details new features, issues, changed behavior, and limitations in Cisco Expressway X8.10.4.
- [Cisco Expressway Session Classification Deployment Guide \(X8.10\)](#)
Describes how to use Expressway search rules to route different SIP variants, enabling benefits like federation with Microsoft infrastructure, and firewall traversal for Cisco Meeting Server.
- [Cisco Expressway Web Proxy for Cisco Meeting Server \(X8.10\)](#)
Summarizes the concepts, requirements, and configuration to use Expressway as a proxy for the Cisco WebRTC app to join on-premises meetings on Cisco Meeting Server.
- [Cisco Expressway X8.10.4 Open Source Documentation](#)
Provides a list of the licenses and notices for open source software used in this product.
- [Cisco TelePresence Video Communication Server Release Note \(X8.10.4\)](#)
Details new features, issues, changed behavior, and limitations in Cisco VCS X8.10.4.
- [Cisco TelePresence Video Communication Server X8.10.4 Open Source Documentation](#)
Provides a list of the licenses and notices for open source software used in this product.

Creating Bookmarks to Cisco.com Pages

After you log in to Cisco.com, you can use the My Cisco tool to save links and documents. You can then go to the links from any Cisco.com page. The tool is available on most Cisco.com pages. See the *My Cisco User Guide* for help:

<https://www.cisco.com/web/help/mycisco.html>

Cisco Support and Downloads

The Cisco Support and Downloads website provides online resources to download documentation, software, and tools. Use these resources to install and configure the software and to troubleshoot and resolve technical issues with Cisco products and technologies. To receive security and technical information about your products, subscribe to the Product Alert Tool (accessed from Field Notices), the Cisco Technical Services Newsletter, and Really Simple Syndication (RSS) feeds.

Access to most tools on the Cisco Support and Downloads website requires a Cisco.com user ID and password.

For more information:

<https://www.cisco.com/c/en/us/support/index.html>

Submitting a Service Request

Open a service request online at:

<https://www.cisco.com/c/en/us/support/index.html>

Display a list of Cisco worldwide contacts at:

https://www.cisco.com/en/US/support/tsd_cisco_worldwide_contacts.html

Obtaining Additional Information

Information about Cisco products, services, technologies, and networking solutions is available from various online sources.

- Sign up for Cisco email newsletters and other communications at:
<https://www.cisco.com/offer/subscribe>
- Visit the Cisco Services website for the latest technical, advanced, and remote services to increase the operational reliability of your network. Go to:
<https://www.cisco.com/go/services>
- Visit Cisco Marketplace, the company store, for Cisco collateral, logo merchandise, Cisco Press books, and software at:
<https://www.cisco.com/go/marketplace/>
- Obtain general networking, training, and certification titles from Cisco Press publishers at:
<http://www.ciscopress.com>
- *What's New in Cisco Product Documentation* (this document) is an online publication that provides information about the latest documentation releases for Cisco products. This online publication is updated monthly and organized by product category. Go to:
<https://www.cisco.com/c/en/us/td/docs/general/whatsnew/whatsnew.html>

- The Warranty Finder allows you to find warranty information that applies to a specific product or product series/family. To access Cisco Warranty Finder:

www.cisco-warrantyfinder.com
