Downloading Software

For a successful HyperFlex upgrade, the Cisco HyperFlex System component bundles can be downloaded from the Cisco [HyperFlex Download website](#):

Step 1 Navigate to <https://www.cisco.com/support> and enter **HX Data Platform** in the Select a Product search bar. Click on the HyperFlex HX Data Platform downloads link

Step 2 Click on the current **Suggested Release** version.

Step 3 Select the appropriate upgrade type and complete the task.

- **For upgrades to HXDP Release 6.0(1a)**: Download the installer bundle.
- **For upgrades from HXDP Release 6.0(1a)**: Click the cart icon for the latest Cisco HyperFlex Data Platform Upgrade Bundle for upgrading existing HyperFlex clusters from a previous release (.tgz file).

Note Read through any Software Advisories to confirm whether any issues may apply to your environment before proceeding with the download.

Step 4 Click the cart icon for the corresponding UCS Infrastructure Software Bundle based on the FI model.

Step 5 Click the cart icon for the Software for UCS B-Series and C-Series blade and rack-mounted servers.

Step 6 For upgrading vSphere, click on the cart icon for the latest HX Custom Image for ESXi Offline Bundle for Upgrading from prior ESXi versions.

Step 7 Click on the cart icon at the stop of the screen to confirm the bundles and click **Download All**.

Step 8 Accept the license agreement and click **Ok** for each file to save it.
