## Extensions

From this page, you can manage Cisco Cyber Vision extensions. Extensions are optional add-ons to the Center which provide more features, such as the management of new device types, additional detection engines, or integrations with external services.

Name	Version	Actions
Cyber Vision Reports Management	4.4.0	<a href="#">Update</a> <a href="#">Remove</a>
Cyber Vision sensor management	4.4.0	<a href="#">Update</a> <a href="#">Remove</a>

Currently, there are two extensions available:

- Sensor management extension

For more information about this extension and how to use it, refer to the corresponding Cisco Cyber Vision Sensor Installation Guide available on [cisco.com](#).

- Reports management extension

For more information about this extension and how to use it, refer to the Cisco Cyber Vision GUI User Guide available on [cisco.com](#).

To install an extension, retrieve the extension file on [cisco.com](http://cisco.com) and import it with the **Import a new extension file** button.
