New and Changed Information for this Release

This chapter contains the following sections:

New and Changed Information in this Release

The following table provides an overview of the significant changes to this guide for this current release. The table does not provide an exhaustive list of all changes made to this guide or of all new features in this release.

Table 1: New Features and Changed Behavior in Cisco UCS Director, Release 6.5

Feature	Description	Where Documented
Addition of Model and Storage Array Type information to certain reports	Enables you to view the model of a managed NetApp storage system, such as whether the system is FAS or AFF.	NetApp Storage System Management
Connection Timeout configuration added to NetApp accounts	Allows you to configure the length of time in seconds that Cisco UCS Director will wait to establish a connection to the NetApp device before timing out.	Adding a NetApp Account
