IIIIII CISCO The bridge to possible

# UCS X-Series M8 Ordering Guide

Page 1 of 56 Cisco Confidential

## Introduction

The Cisco UCS X-Series Modular System simplifies your data center, adapting to the unpredictable needs of modern applications while also providing for traditional scale-out and enterprise workloads. It reduces the number of server types to maintain, helping to improve operational efficiency and agility as it helps reduce complexity. Powered by the Cisco Intersight<sup>™</sup> cloud operations platform, it shifts your thinking from administrative details to business outcomes with hybrid cloud infrastructure that is assembled from the cloud, shaped to your workloads, and continuously optimized.

The Cisco UCS X215c M8 Compute Node is integrated into the Cisco UCS X-Series Modular System. Up to eight compute nodes can reside in the 7-Rack-Unit (7RU) Cisco UCS X9508 Chassis, offering one of the highest densities of compute, IO, and storage per rack unit in the industry.

## Purpose, Audience, and Scope

## Purpose

This document describes how to order the UCS X-Series M8 Product

## Scope

This ordering guide describes the information for:

- Ordering Structure of Cisco UCS X-Series M8 Product
- Catalog of Product IDs
- Ordering Server Hardware and Software options
- Links to additional resources

#### Audience

Buy Method Through Cisco (Eg: Direct Customer & Tier 1 Partners):

• Scenario 1: Customer Without Enterprise Agreement for Cisco Intersight Software License

• Scenario 2: Customer With Enterprise Agreement for Cisco Intersight Software License Buy Method Through Distributor (Eg: Tier 1 & Tier 2 Partners):

- Scenario 1: Customer Without Enterprise Agreement for Cisco Intersight Software License
- Scenario 2: Customer With Enterprise Agreement for Cisco Intersight Software License

# Ordering Structure of UCS X-Series M8 Ordering Structure

# Catalog of Product IDs (PIDs)

**Note:** For a complete list of part numbers for the see the <u>Cisco UCS X215c M8 Compute Node Spec Sheet</u>, <u>Cisco UCS X9508 Chassis Spec Sheet</u>

#### Table 1. PID of Major Line Bundle (MLB)

Product ID (PID)	Description
UCSX-M8-MLB	UCSX M8 Modular Server and Chassis MLB

#### Table 2. Cisco Compute Hyperconverged Chassis Major Line PIDs

Product ID (PID)	Description
UCSX-9508-D-U	UCS X9508 Chassis Configured

#### Table 3. Cisco Compute Hyperconverged Server node Major Line PIDs

Product ID (PID)	Description
UCSX-215C-M8	Cisco UCS X215c M8 Compute Node without CPU, memory, drive bays, drives, VIC
	adapter, or mezzanine adapters (ordered as a UCS X9508 chassis option)

#### Table 4. Cisco Intersight Major Line PIDs

Product ID (PID)	Description
DC-MGT-SAAS	Cisco Intersight SaaS
CNDL-DESELECT-D	Conditional Deselect

## Step By Step Ordering Process

## Buy Method Through Cisco (Eg: Direct Customer & Tier 1 Partners)

Scenario 1: Customer Without Enterprise Agreement for Cisco Intersight Software License

Step 1.

- a. Configure UCSX-215C-M8-U by selecting peripherals from category window on the left.
- b. PIDs are listed in the window on the right. Some PIDs like Memory and storage drives are grouped according to type or series; select from the grouped options located above SKU window on the right.
- c. Follow warning messages to configure the minimum required option PIDs.
- d. Click on "Done" when completed.
