Feature Description

The About dialog box is now enhanced to provide information about the ISO version of the installed CPS.

To view the ISO version, do one of the following:

- On the Policy Builder interface, go to **Tools** > **About Policy Builder**. The **About Policy Builder** dialog box is displayed with the ISO information.
- On the Control Center interface, click **Help** > **About**. The **About Control Center** dialog box appears with the ISO details.

• On the CPS Central interface, click **Help** > **About**. The **CPS Central** dialog box is displayed with the installed ISO version.

Table 4: Revision History

Revision Details	Release
First introduced	19.3.0

Feature Description

CPS now supports the following enhancements in Policy Builder:

• Configurable logout option has been added on the banner.

ultulu CISCO, POLICY BUILDER	Hostname: pcrfclient01	SVN URL: http://bvip02/repos/configuration	SVN Revision: 31	Welcome, gns-svn	(ADMIN)	POLICY BULDER	LOGOUT
File Tools							
※ 令 ¥ 本 今							

• Validation prompt during login - The prompt is presented only if there are uncommitted changes to the selected repository.

When you click OK button after Repository selection, you are presented with a validation prompt.

Choose Policy	u x Builder data repository	
Build policies us Repository	ing version controlled data	
	OK Cancel	
Are you There those	sure? are uncommitted changes to the 'Repo changes?	sitory' repository. Do you wish to discard
		Discard Retain

• When **Discard** is selected, the uncommitted changes are discarded.

- When Retain is selected, the uncommitted changes are retained.
- If the dialog box is dismissed without pressing a button (ESC key, close(x) icon), the uncommitted changes are retained.
