**Americas Headquarters:**  
Cisco Systems, Inc., 170 West Tasman Drive, San Jose, CA 95134-1706 USA

**clear license agent**

# clear license agent

To clear license agent statistics counters or connection statistics, use the **clear license agent** command in privileged EXEC mode.

**clear license agent {counters | sessions}**

<b>Syntax Description</b>	<b>counters</b>	Clears license agent statistics counters.
	<b>sessions</b>	Clears license agent connection statistics.

<b>Command Modes</b>	Privileged EXEC (#)
----------------------	---------------------

<b>Command History</b>	<b>Release</b>	<b>Modification</b>
	15.0(1)M	This command was introduced.
	Cisco IOS XE Release 3.5S	This command was integrated into Cisco IOS XE Release 3.5S and implemented on the Cisco ASR 903 router.

<b>Examples</b>	The following example clears license agent statistics counters:
-----------------	---

```
Router# clear license agent counters
```

<b>Related Commands</b>	<b>Command</b>	<b>Description</b>
	<b>show license</b>	Displays information about a Cisco IOS software license.

# debug license

To enable controlled Cisco IOS software license debugging activity on a device, use the **debug license** command in privileged EXEC mode. To disable debugging, use the **no** form of this command.

```
debug license {agent {all | error} | core {all | errors | events} | errors | events | ipc}
no debug license {agent {all | error} | core {all | errors | events} | errors | events | ipc}
```

## Cisco ASR 903 Router Platforms

```
debug license {agent {all | errors} | core {all | errors | events} | errors | events | feature atm | ipc}
no debug license {agent {all | errors} | core {all | errors | events} | errors | events | feature atm | ipc}
```

## Cisco ASR 1001 Router Platforms

```
debug license {core {all | errors | events} | errors | ipc}
no debug license {core {all | errors | events} | errors | ipc}
```

Syntax Description		
	<b>agent</b>	Debugs license agent information. <ul style="list-style-type: none"> <li>• <b>all</b>--Debugs all license agent messages.</li> <li>• <b>error</b>--Debugs only license agent error messages.</li> </ul>
	<b>core</b>	Debugs messages from a license core module. <ul style="list-style-type: none"> <li>• <b>all</b>--Debugs all license core messages.</li> <li>• <b>errors</b>--Debugs only license core error messages.</li> <li>• <b>events</b>--Debugs only license core event messages.</li> </ul>
	<b>errors</b>	Debugs license warnings and errors.
	<b>events</b>	Debugs license event messages.
	<b>feature atm</b>	Debugs the ATM feature license.
	<b>ipc</b>	Debugs license interprocess communication (IPC) messages.

**Command Default** Debugging is disabled.

debug license

<b>Command Modes</b>	Privileged EXEC (#)
----------------------	---------------------

<b>Command History</b>	<b>Release</b>	<b>Modification</b>
	12.2(35)SE2	This command was introduced.
	12.4(15)XZ	This command was integrated into Cisco IOS Release 12.4(15)XZ.
	12.4(20)T	This command was integrated into Cisco IOS Release 12.4(20)T.
	Cisco IOS XE Release 3.2S	This command was integrated into Cisco IOS XE Release 3.2S and implemented on the Cisco ASR 1001 router.
	Cisco IOS XE Release 3.5S	This command was modified. The <b>feature atm</b> keywords were added for the Cisco ASR 903 router.

<b>Usage Guidelines</b>	Use this command to help troubleshoot issues with licenses on a device.
	On the Cisco ASR 1001 router, the output from the <b>debug license</b> command is not in standard IOS format. You must execute the <b>request platform software trace rotate all</b> privileged EXEC command to make the output in the log files in the bootflash:tracelogs directory.

<b>Examples</b>	The following example shows how to enable debugging for license warnings and errors on a router:
	Router# <b>debug license errors</b> License warnings and errors debugging is on
	The following example shows how to enable debugging for all license agent information on a switch:

```
Switch# debug license agent all
license agent app https[0x43FBC7C]: urlhook function
license agent app https[0x43FBC7C]: https action function
