Finding Feature Information

Your software release may not support all the features documented in this module. For the latest caveats and feature information, see Bug Search Tool and the release notes for your platform and software release. To find information about the features documented in this module, and to see a list of the releases in which each feature is supported, see the feature information table at the end of this module.

Use Cisco Feature Navigator to find information about platform support and Cisco software image support. To access Cisco Feature Navigator, go to www.cisco.com/go/cfn. An account on Cisco.com is not required.

Information About IPv6 Multicast Explicit Tracking of Receivers

Explicit Tracking of Receivers

The explicit tracking feature allows a device to track the behavior of the hosts within its IPv6 network. This feature also enables the fast leave mechanism to be used with MLD version 2 host reports.

How to Configure IPv6 Multicast Explicit Tracking of Receivers

Configuring Explicit Tracking of Receivers to Track Host Behavior

SUMMARY STEPS

- 1. enable
- 2. configure terminal
- 3. interface type number
- 4. ipv6 mld explicit-tracking access-list-name

DETAILED STEPS

	Command or Action	Purpose
Step 1	enable	Enables privileged EXEC mode.
	Example:	• Enter your password if prompted.
	Device> enable	
Step 2	configure terminal	Enters global configuration mode.
	Example:	
	Device# configure terminal	
Step 3	interface type number	Specifies an interface type and number, and places the device in interface configuration mode.
	Example:	
	<pre>Device(config)# interface FastEthernet 1/0</pre>	
Step 4	ipv6 mld explicit-tracking access-list-name	Enables explicit tracking of hosts.
	Example:	
	<pre>Device(config-if)# ipv6 mld explicit-tracking list1</pre>	

Configuration Examples for IPv6 Multicast Explicit Tracking of Receivers

Example: Configuring Explicit Tracking of Receivers

```
Device> enable
Device# configure terminal
Device(config)# interface FastEthernet 1/0
Device(config-if)# ipv6 mld explicit-tracking list1
```

Technical Assistance

Description	Link
The Cisco Support and Documentation website provides online resources to download documentation, software, and tools. Use these resources to install and configure the software and to troubleshoot and resolve technical issues with Cisco products and technologies. Access to most tools on the Cisco Support and Documentation website requires a Cisco.com user ID and password.	

Feature Information for IPv6 Multicast: Explicit Tracking of Receivers

The following table provides release information about the feature or features described in this module. This table lists only the software release that introduced support for a given feature in a given software release train. Unless noted otherwise, subsequent releases of that software release train also support that feature.

Use Cisco Feature Navigator to find information about platform support and Cisco software image support. To access Cisco Feature Navigator, go to www.cisco.com/go/cfn. An account on Cisco.com is not required.

Feature Name	Releases	Feature Information
IPv6 Multicast: Explicit Tracking	12.2(25)8	This feature allows a devicer to track the behavior of the hosts within its IPv6 network. The following command was introduced: ipv6 mld explicit-tracking .
of Receivers	12.2(25)SG	
	12.2(33)SRA	
	12.2(33)SXH	
	12.3(7)T	
	12.4	
	12.4(2)T	
	Cisco IOS XE Release 2.1	
	15.0(1)S	
	15.0(1)S
