Replacing a Fan Tray

To replace the fan tray, complete the following steps:

> ✎ **Note**   If you are hot-swapping the fan tray, it is recommended to complete the operation within two minutes to ensure that the device remains within operating temperature.

Step 1   Loosen the three captive fan tray screws.

Step 2   Pull the fan tray out.

Step 3   Insert the replacement fan tray and tighten the three captive screws.
