New and Changed Information

The following tables provide an overview of the significant changes to this guide up to this current release. The tables do not provide an exhaustive list of all changes made to the guide or of the new features up to this release.

Table 1: New Features and Changed Information for Cisco APIC Release 4.1(1)

Feature	Description	Where Documented
Multi-Tier Architecture (Tier-2 Leaf) Support	Cisco APIC now supports a 3-tier core-aggregation-access topology.	Multi-Tier Fabric Topology (Example) Adding a Switch Before Discovery Using the GUI
Bookmark button	You can bookmark almost any page, which enables you to go back to that page easily by choosing the bookmark from your list of bookmarks.	Work Pane
Default tab	You can mark a tab as the "favorite" on a page. Whenever you navigate to that page, that tab will be the default tab that is displayed. This feature is enabled only for the tabs in the Work pane; you cannot mark a menu bar tab as a favorite.	Work Pane
Integrations tab	The Integrations tab enables you to view all 3rd party integrations.	Integrations Tab
