Change History

This table lists changes made to this guide. Most recent changes appear at the top.

Change	See	Date
Initial Release of Document for Release 12.5(1)		January 2020
Cisco SocialMiner (SM) has been renamed as Customer Collaboration Platform (CCP).	Preface >> Related Documents	
You can now create custom reports without installing Standalone Unified Intelligence Center.	Create Custom Reports>>Overview Create Custom Reports>>How to Create Custom Reports	

About This Guide

The *Cisco Unified Contact Center Express Report Developer Guide* describes how database records are written for various call, chat, and email scenarios in Cisco Unified Contact Center Express (Unified CCX). It describes how to create custom reports from Cisco Unified Intelligence Center that is embedded with Unified CCX.

Audience

This document is intended for Unified CCX users who use Unified Intelligence Center to create custom reports.

Conventions

This manual uses the following conventions.

Convention	Description
boldface font	<p>Boldface font is used to indicate commands, such as user entries, keys, buttons, and folder and submenu names. For example:</p> <ul style="list-style-type: none"> • Choose Edit > Find • Click Finish.
<i>italic font</i>	<p>Italic font is used to indicate the following:</p> <ul style="list-style-type: none"> • To introduce a new term. Example: A <i>skill group</i> is a collection of agents who share similar skills. • For emphasis. Example: <i>Do not</i> use the numerical naming convention. • An argument for which you must supply values. Example: <i>IF (condition, true-value, false-value)</i> • A book title. Example: <i>See the Cisco Unified Contact Center Express Installation Guide.</i>
window font	<p>Window font, such as Courier, is used for the following:</p> <ul style="list-style-type: none"> • Text as it appears in code or information that the system displays. Example: <code><html><title> Cisco Systems, Inc. </title></html></code> • File names. Example: <code>tserver.properties.</code> • Directory paths. Example: <code>C:\Program Files\Adobe</code>

Convention	Description
string	Nonquoted sets of characters (strings) appear in regular font. Do not use quotation marks around a string or the string will include the quotation marks.
[]	Optional elements appear in square brackets.
{ x y z }	Alternative keywords are grouped in braces and separated by vertical bars.
[x y z]	Optional alternative keywords are grouped in brackets and separated by vertical bars.
< >	Angle brackets are used to indicate the following: <ul style="list-style-type: none"> • For arguments where the context does not allow italic, such as ASCII output. • A character string that the user enters but that does not appear on the window such as a password.
^	The key labeled Control is represented in screen displays by the symbol ^. For example, the screen instruction to hold down the Control key while you press the D key appears as ^D.
